Measurement & Instrument Review

(formerly Instrument Review)

Volume 15

NUMBERS 193 TO 204

January to December, 1968

MORGAN-GRAMPIAN (PUBLISHERS) LIMITED
28 ESSEX STREET, STRAND, LONDON, W.C.2, ENGLAND

INDEX TO VOLUME FIFTEEN

ARTICLES

Analytical instrumentation in the U.S.A. *by M & I's* American correspondent 517
Automatic control of the Leningrad underground railway *by* Novosti Press Agency 650

Computer-aided design, staff article 317
Counting devices, survey *by* Denis Taylor 428, 513, 589

Devaluation and the instrument industry, staff article 104
Diamonds in instrumentation *by* T. Marles 726
Digital conversion of mechanical quantities *by* A. R. Russell 168, 237

Emission spectroscopy in the analytical laboratory *by* J. Golden 721, 803
Emission spectroscopy in the analytical laboratory—Photoelectric instruments (part 1) 883

Firm foundation—*M & I* takes a look at Carl Zeiss of Oberkochen, staff article 310
Flame emission and atomic absorption spectrometry *by* J. R. W. Warn 505, 576, 669
Fluidic counting devices *by* Denis Taylor 666

Gas analyser for the measurement of impurities in air *by* H. Engelhardt 98
Gas analysis in the field, the selection and arrangement of accessories *by* Heinz Ludecke 244
Gyroscopy in brief, staff article 747

Herstmonceux's giant eye. The Isaac Newton telescope, staff article 40
High-energy particles of cosmic radiation, a study *by* E. Andronikashvili, G. Chikovani and Z. Mandzhavidze 163
Holography in brief, staff article 324
Hybrid computer measurement of amplitude and phase-shift between sinusoidal signals *by* M. R. Karaksy 314
Hybrid computing techniques applied to data acquisition *by* E. J. Wightman 92

Infra-red and Raman spectroscopy *by* J. R. W. Warn 158, 234
Integrated-circuits in brief, staff article 530

Laboratory measuring instruments *by* D. Aliaga-Kelly 799
Lasers in brief, staff article 580
Light and electron microscopy, new instruments in the field of, *by* Harald Volkmann 226

Mass spectrometry: instrumentation and application. Survey *by* J. H. Beynon and A. E. Fontaine (part 3) 34
Miniature rubidium mangetometer *by* M. J. Usher 509

North American instrument industry *by* D. W. Brown 18
Nuclear instruments, a survey *by* Denis Taylor 639
Nuclear instruments, industrial applications of, *by* Denis Taylor 645
Nuclear magnetic resonance spectroscopy *by* W. G. Peterson 299, 423
Nuclear medicine instruments *by* R. G. Davis 877

Optoelectronics in brief, staff article 443

Rank-Kent tug-of-war *by* M. Duffy 516
Reactor instrumentation *by* C. J. Macleod 741

Sira golden jubilee, staff article 818
Solid-state data-logging systems *by* E. J. Wightman 659
Special test equipment for product assessment *by* R. N. Dawson 744
Stereoscan scanning electron microscope *by* A. D. G. Stewart 569
Suppressed-range measuring instruments—are they more accurate? *by* F. B. Hinderwell 305
Synchro components in brief, staff article 896

Technology of a lunar soft-landing *by* R. E. Sears *and* J. D. Cloud (part 1) 873
Time measurement *by* Denis Taylor 173

Ultra-violet and visible absorption spectrometry *by* J. R. Penney 26, 105

Valve voltmeter to phase-angle voltmeter, an introduction to the phase-angle voltmeter *by* A. Freilich 100

AUTHORS

Addie, R. W. Review of *Organization for overseas marketing—Export Handbook No. 3* 100
Aliaga-Kelly, D. Laboratory measuring instruments 799
Andronikashvili, E., G. Chikovani *and* Z. Mandzhavidze. The study of high-energy particles of cosmic radiation 163
Anthony, D. M. Review of *Recommended procedure for the non-destructive testing of steel castings by visual examination, acid picking and etching, pressure testing and penetrant flaw detection* 442

Banfield, W. Review of *Electrical measurements and measuring instruments* 591
Bell, D. A. Review of *Grounding and shielding techniques in instrumentation* 442
Beynon, J. H. *and* A. E. Fontaine. I.R. Survey No. 5. Mass spectrometry: instrumentation and application (part 3) 34
Brown, D. W. The north American instrument industry 18

Chikovani, G., E. Andronikashvili *and* Z. Mandzhavidze. The study of high-energy particles of cosmic radiation 163
Clarke, R. L. Review of *Utilizing r & d by-products* 110
Cloud, J. D. Technology of a lunar soft-landing (part 1) 873
Collins, S. J. The r.f. cavity gauge 30
Collinson, A. J. L. Nucleonic instrument conference 823
Colvile, R. F. Review of *Innovation and the balance of payments: the experience of the pharmaceutical industry* 42
Colvile, R. F. Review of *Publicity for exports* 110
Colvile, R. F. Review of *The free trade area option* 233
Conway, Hazel. Review of *'The Electronic Revolution'* 110

Davie, O. H. Transistorized display oscilloscope 449
Davis, R. G. Nuclear medicine instruments 877
Dawson, R. N. Special test equipment for product assessment 744
Degenhardt, A. H. Standpoint 501
Duffy, M. Rank-Kent tug-of-war 516

Easterling, Dr K. E. Modern metallography in metallurgy 825
Engelhardt, H. A gas analyser for the measurement of impurities in the air 98

Feligett, F. B. Standpoint 91
Finkelstein, L. Review of *Basic course in measurement technology: Part 1, measurement of electrical quantities* 233
Fontaine, A. E. *and* J. H. Beynon. I.R. Survey No. 5. Mass spectrometry: instrumentation and application (Part 3) 34
Frampton, J. B. Review of *Automation and mechanization of production processes in the instrument industry* 233
Frampton, J. B. Review of *Basic instrumentation for engineers and physicists* 176
Frampton, J. B. Review of *Building materials testing services* 42
Frampton, J. B. Review of *Cold-cathode tubes* 176
Frampton, J. B. Review of *Fundamentals of reliable circuit design, vol. 3* 658
Frampton, J. B. Review of *Measurement and classification of acoustic noise from rotating electrical machines* 591

Garner, K. C. Review of *Aerospace instrumentation: vol. 4* 176
Golden, Dr. J. Emission spectroscopy in the analytical laboratory 721, 803
Golden, Dr J. Emission spectrometry in the analytical laboratory—Photoelectric instruments 883

Hart, N. Standpoint 295
Hinderwell, F. B. Suppressed-range measuring instruments—are they really more accurate? 305
Holden, R. Ifip conference at Edinburgh 806

Karaksy, M. R. Hybrid computer measurement of amplitude and phase-shift between sinusoidal signals 314

Lee, J. B. Review of *Temperature control* 658
Lee, J. B. Review of *Valves and picture tubes: data booklet 1968* 591
Ludecke, H. The selection and arrangement of accessories used for gas analysis in the field 244

Macleod, C. J. Reactor instrumentation 741
Mandzhavidze, Z., E. Andronikashvili *and* G. Chikovani. The study of high-energy particles of cosmic radiation 163
Marles, T. Diamonds in instrumentation 726
Muller, E. Review of *Instrument maintenance management, vol. 2.* 442
Muller, E. Review of *Kempe's Engineers' Year Book, vols. 1 & 2.* 442

Novosti Press Agency. Automatic control of the Leningrad underground railway 650

Owen, A. R. Standpoint 225

Pearse, E. S. Standpoint 419
Penney, Dr J. R. Ultra-violet and visible absorption spectrometry (Parts 1 and 2) 26, 105
Peterson, Dr W. G. Nuclear magnetic resonance spectroscopy (parts 1 and 2) 299, 423
Powell, Dr J. Standpoint 795
Pringle, Dr R. W. Standpoint 717

Russell, A. R. Digital conversion of mechanical quantities (parts 1 and 2) 168, 237

Sears, R. E. Technology of a lunar soft-landing (part 1) 873
Sharples, J. T. Review of *Towards a dearer fuel policy* 110
Stewart, A. D. G. The stereoscan scanning electron microscope 569
Storey, W. H. Standpoint 635

Taylor, Prof. D. A survey of nuclear instruments 639
Taylor, Prof. D. Industrial applications 645
Taylor, Prof. D. Standpoint 17
Taylor, Prof. D. *M & I* Survey No. 6—Counting devices (parts 1-3) 428, 513, 589

Taylor, Prof. D. Time measurement 173
Taylor, Prof. D. U.S. nuclear instrument systems and components exhibition—a report 881
Taylor, Prof. D. A review of *A method of estimating hydrogen in solid and liquid samples by means of neutron thermalization* 442
Taylor, Prof. D. A review of *An analysis of the commissioning tests of the delayed neutron monitor on the d.m.t.r. boiling water loop* 110
Taylor, Prof. D. A review of *A plastic sheet dosimeter containing lithium-fluoride powder for surface and finger-tip dosimetry* 42
Taylor, Prof. D. A review of *British Miniature Electronic Components Data 1967-68* 591
Taylor, Prof. D. Review of *Performance of Ge (Li) detectors over a wide temperature range* 442
Taylor, Prof. D. A review of *Pneumatic and hydraulic control systems, vol. 1.* 658
Tucker, R. M. A review of *Diamond Research* 233
Tucker, R. M. A review of *Fibre-strengthened metallic composites* 233
Usher, M. J. A miniature rubidium magnetometer 509
Volkmann, A. New instruments in the fields of light and electron microscopy 226
Warn, Dr J. R. W. Infra-red and Raman spectroscopy (Parts 1 & 2) 158, 234
Warn, Dr J. R. W. Flame emission and atomic absoprtion spectrometry (parts 1-3) 505, 576, 669
Wightman, E. J. Hybrid computing techniques applied to data acquisition 92

Wightman, E. J. Standpoint 565
Wolfendale, E. Standpoint 869
Young, L. Standpoint 157

MONITOR

A new series from Sira 115
Anglo-Soviet co-operation in applied science and technology 181
Anglo-Soviet working group on standards and metrology 870
Artificial kidney developed in Norway 116
Austro-British developments 798
Automatic testing for cervical cancer 420
B.C.S. as an aid to export 255
Binocular vision tester from Zeiss 298
British Calibration Service—first laboratories 182
Computer graphics 889
Computerized signalling for B.R. 585
Computerized typesetting 637
Crack detection 253
Decca produces Britain's first n.g.r. spectrometer 503
Devaluation and mechanical engineering 183
Diamonds from Russia 566
E.c.l. circuits for computers 48
Electronic control for German federal railways 872
Elliott data display system 421
Farewell and hello 252
Ferranti demonstrate 'hands off' autostabilizer 182
Flying fluidics 502
Four paints for five oceans 719
Further applications for lasers 254
Freeze etching—a new advance 421
Gog-Magog 815
Going, gains . . . . . metric 181
G.P.O. opens new h.f. radio receiving station 48
High-quality optical glass 422
Honeywell find new use for lasers 46
Honeywell recorders used for ionospheric research 638
If you want to know the time 183
Improved submarine cable manufacture 637
Industrial investment urged by B.E.A.M.A. 297
Instrumentation survey 891
Jaguar prepares to show its claws 117
Jubilee year of Imperial College 816
Keeping up to standard 586
Lapping and polishing silicon slices 252
Larger profits needed by instrument industry says Honeywell 253
Laser for upper atmosphere research 567
Magnetic search technique in archaeology 502
Mechanical engineering expenditure will increase by 18% this year 47
Meter for high-gamma fields 871
Microfilming—beyond the spy belt 718
Microwave communications—link analyser 504
MinTech aid for electrical research 420
MinTech orders a quadruple magnet 116
More electronic instruments for the dairy 889
National centre for tribology 46
New particle counter 298
N.P.L.—annual report 1967 720
New plating process 566
New project for advanced industrial instrumentation 184
New standards and calibration centre 816
One way to find a leak 117
Optical design group reports on advanced research project 47
Optical systems for colour tv cameras 115
Plessey-Sippican bathythermograph system 871
Professional manpower 568
Recording meter for current speed, direction and temperature 872
Rent-a-laser 568
Romania—a growing market 720
R.R.E. to be centre for national r.f. standard 585
S.G.S.-Fairchild opens new microcircuit facility at Falkirk 296
Siraid—the problem solving service 796
Solar radiometer for Greek national observatory 46
South Bank automation centre opened at Borough Polytechnic 890
Soviet discussions on instrumentation and communications 115
Soviet scene 254
Study of underwater navigation systems 871
Swiss watch beats all precision records 252
The continuing story of metrication 718
The glass age 588
This way for inventors 567
Trends in metrology and manufacture 182
Tv delay-line glass from an automatic press 636
U.K.A.E.A. bureau for materials technology 116
U.K./U.S.S.R. standards and metrology 297
Water pollution 797
Westinghouse find a new way to energize a laser 47
What to measure 503
X-ray potato separator 870
Zeiss (Oberkochen) and transplant surgery 636

INSTRUMENTALITY

Accelerometer, servo-controlled 112
Ammeter, non-mechanical 527
Cold-cathode optical display 313
Computer-aided programming of n.c. turning machines 597
Computer store, optical 528
Continuous-increment double-pulse generator 821
Data sensing using fibre optics 247
Display oscilloscope, transistorized *by* O. H. Davie 449
'Edge-shift' effect in gallium arsenide, measurement of 250
Electronic weighing 728
Electro-optical tracking 450
Endoscope, use in the aerospace industry 312
Engraver spindle, high-speed 111
Faster identification of crystalline materials 899
Glasses, conducting 652
Headset with peak-limited sound transmission 898
Hologram interferometry 598
Induction motor drive, variable-speed 730
Infra-red radiation and thermal imaging 652
Linear electrical thermometer 819
Magnetic recording, high-density 820
Magnetic visual display 651
Mass spectrometer, time-of-flight 45
Melting and boiling points, automatic determination 113
Micromanometer 651
Microscopy, preparation of samples 43
Mini radar—a new form of measurement 900
Motors, d.c. miniature 43
Phase-sensitive detection, applications of 249
Pin-substrate mounting 177
Pressure gauge, dead-weight 248
Radiation thermometer, uncooled 179
Strain/load tester, bi-directional 250
Sweet talk 901
Telephone subset coder 527
Transducer, fluid-flow 177
Variable circular orifice 111

REGULAR FEATURES

Company profiles
Advance Electronics 893
Baird & Tatlock 510
R. & J. Beck 446
Cambridge Instruments 813
Lyons Instruments 732
W. Ottway 592
Texas Instruments 664

Companies and organizations on the move 50, 119, 185, 323, 441, 526, 586, 638, 737, 817

Instrument readings *by* **Jack Point** 38, 108, 166, 242, 308, 436, 518, 594, 656, 734, 811, 882

Letters to the editor—
Academic jargon 440
Analytical instrumentation in the U.S.A. 738
Beware of the bull 440
Counting devices 738
Exhaust gas analysis 655
Firm foundation 588
Government—and the automatic laboratory equipment manufacturer 895
Graduates' role in industry 187
House journals 738
Motoring Which? road test instrumentation 103
'Must They Nationalize Publicity Too?' 187
Problems in gas analysis 525
Process instrument exports 326
Sixpenny idea 440
Time measurement 246
Zeiss Stiftung 738

People on the move 49, 118, 184, 255, 323, 441, 526, 586, 638, 737, 817

Publications received 42, 110, 176, 233, 442, 591, 658

EXHIBITIONS AND CONFERENCES

Advanced industrial measurement and control symposium 654

Biomedical engineering exhibition 667
Britain at Interkama 891
Brno and after 802

Computer measurement technology—recent I.E.E. conference 572

Farnborough '68 807

I.E.A. exhibition review 453
Ifip '68 806
Innovation for profit—a report on Sira's conference 438
Instrumentation at the Soviet exhibition 736
International broadcasting convention 810

Leipzig Spring Fair 448

Modern metallography in metallurgy 825

Nucleonic instrument conference 823

OY—Ltd. Finland, a new face at the I.E.A. exhibition 533

Pattern recognition. I.E.E./N.P.L. conference 739

Sima at Moscow 304
Sira industrial measurement and control group progress meeting 584

The glass age—eighth international glass congress 588

U.S. nuclear instrument systems and components exhibition 881

SCANNING THE LITERATURE

Aerospace instrumentation, vol. 4 edited *by* M. A. Perry 176
A method of estimating hydrogen in solid and liquid samples by means of neutron thermalization *by* D. H. Carter *and* J. E. Saunders 442
An analysis of the commissioning tests of the delayed neutron monitor on the D.M.T.R. boiling water loop *by* E. W. Ethrington 110
A plastic sachet dosimeter containing lithium fluoride powder for surface and finger-tip dosimetry *by* C. O. Peabody *and* H. E. Preston 42
Automation and mechanization of production processes in the instrument industry *by* A. N. Gavrilov 233

Basic course in measurement technology: part 1, Measurement of electrical quantities *by* L. Merz 233
Basic instrumentation for engineers and physicists *by* A. M. P. Brookes 176
British Miniature Electronic Components Data 1967-68 edited *by* G. W. A. Dummer *and* J. M. Robertson 591
Building materials testing service. Rubber and Plastics Research Association 42

Cold-cathode tubes *by* J. B. Dance 176

Diamond Research 1968. Industrial Diamond Information Bureau 233

Electrical measurements and measuring instruments *by* E. W. Goldins *and* F. C. Widdis 591
Electronic electro-chemical measuring instruments *by* D. Dobos 442

Fibre-strengthened metallic composites. American Society for Testing and Materials 1967. 233
Fundamentals of reliable circuit design, vol. 3 *by* M. Xlander 658

Grounding and shielding techniques in instrumentation *by* Ralph Morrison 442

Innovation and the balance of payments: the experience of the Pharmaceutical Industry *by* G. Teeling-Smith 42

Instrument maintenance management, vol. 2 *by* R. F. Mahood 442

Kempe's Engineers' Year Book 1968. vols. 1 and 2. 442

Measurement and classification of acoustic noise from rotating electrical machines. B.E.A.M.A. 591

Organization for overseas marketing—Export handbook No. 3. Board of Trade. 110

Performance of Ge (Li) detectors ever a wide temperature range *by* E. Sakai, H. L. Malm *and* I. L. Fowler 442
Pneumatic and Hydraulic Control Systems: vol. 1 edited *by* M. A. Aizerman 658
Publicity for Exports. C.o.I 110

Recommended procedure for the non-destructive testing of steel castings by visual examination, acid pickling and etching, pressure testing and penetrant flaw detection. The British Steel Castings Research Association. 442
Ruthenium. International Nickel 658

Temperature control *by* Myer Kutz 658
The Electronic Revolution *by* S. Handel 110
The Free Trade Area option. Maxwell A. Stamp Associates 233
Towards a dearer fuel policy *by* James Bowsden 110

Utilizing r & d by-products edited *by* J. W. Blood 110

Valves and picture tubes: data booklet 1968. Mazda 591

NEW PRODUCTS

Adhesive—epoxy, high-temperature 128
Air conditioning systems 372
Amplifiers—d.c. differential 56
—d.c. logarithmic 124
—d.c. power 367
—charge 683, 839
—differential 365, 761
—differential, dual-trace 907
—differential, microcircuit 191
—differential, plug-in 683
—electrometer, operational 191
—galvanometer drive 905
—low-noise 465
—operational 56, 127, 602, 677, 837
—operational, battery operated 461
—operational, differential 537
—servo, miniature 264
—solid-state power 367
Anti-static spray 911
Arc-welding equipment—micro-plasma 128
Audio oscillator amplifier digital frequency meter 369

Balances—analytical 544
—electro, micro 837
Bath—thermostatic, with rotator 911
Battery chargers—automatic 761
Belts—endless 128
Bench instruments—portable 190
Blasting/deflashing machine 583
Blowers—transverse-flow 465
Bonding equipment—micro-circuit 128
Bridges—linear 258
—miniature single-phase 191
—resistance 907
Burner—electro 128

Calculator—desk-top electronic 677
Calorimeter—laser 258
Calculator—probability 833
Cameras—multi-format photomicro-graphic 827
—Vidicon 60
Capacitance boxes—variable 264
Card processing equipment 267
Casting resin 911
—microwave attenuation 195
Chart measuring and rewinding machine 912
Chromatographs—analytical 753
Chromatography sample injector 188
Clock—master system 196
Coating—nickel-aluminium 759
Colorimeter—automatic, and sampler 59
Computer 679
—desk 131
—self-actuated gas flow 401, 537
—correlation 537
Conductivity system 831
Connectors—ribbon-feeder 369
Controllers—a.c. power and constant-voltage regulator 124
—cyclic program 537
—level 461
—level, plug-in 189
—proportional temperature 122
—speed 373
—temperature 122, 679
Constant current devices 124
Core stores 267
Convertors—d.-a. 365, 677, 903
—tubidity-to-current 189
—transfer element 537
Cooler plates 761
Co-ordinate display—large-screen 839
Counters—bi-directional 51
—decade 195, 363
—digital 51, 677
—gamma-ray 459
—impulse 459
—predetermining 459
—preset revolution 735
—pulse 459
—remote readout 123, 459
—machine-tool 544
Counter/timer—digital 545
Coupling—micro, shaft 604
Curve tracer—transistor 369
Cutters—side and top 195

Data acquisition system 131
Data processor—digital 55
Data recording system 264
Data scaling unit—digital 267
Data storage display units 52
Delay—group, measuring equipment 123
Delay relays—time 123
Detector—fluorescence trace 371
—infra-red 268
—leak 461
—null 839
—phase-sensitive 191
—pin hole 833
—temperature 259
Dial drive 465
Dieheads—miniature tangential 835
Discriminator—digital 537
Disk storage system 903
Dose-rate meter—portable 195
Drawing board—portable 911
Dry-air supply unit 544
Dryers—instrument air 912
Dust collector 465
Dynamometer—eddy-current 189

Electrometer—vibrating capacitor 191
Electrophoretic painting machine 839
Electrophoresis strip analyser—automatic 677
Electrostatic powder depositor 601
Encapsulant foam 192
Encapsulant—translucent 260
Encoders—shaft position, with amplifiers 55
—shaft, remote display 196
Endoscope—distal 268
Etching solution 911

Fibre-optic light source 268
Film slide/reader/projector 268
Filter—operational 605
—r.f. 464
Flame-spraying powders 681
Flocculator—laboratory 911
Flow measurement kit 374
Flowmeter detector 132
Flowmeter—hygienic 132
Fluid transfer unit 545
Fluidics kit 757
Foam—urethane 373
Furnaces—conveyor 837

Gauges—liquid-level 831
—roughness 835
Gas analysis equipment 59
Gaussometer 190
Gaussometer—Hall-effect 56
Generators—crystal marker 263
—format 905
—high-speed pulse 190
—pulse 363, 537, 841
—pulse, solid-state 762
—word 365

Hammer drill 260
Height gauge 196
Humidifier 837
Hydraulic test unit—portable 831

Imagescope—flexible 268
Indicating scaler 603
Indication—numerical position 55
Indication system, multiple 905
Indicator—digital, miniature 539
—elapsed-time 51, 365, 544, 545, 603
—flow 831
—peak-pressure/load 545
—temperature 122
—transducer 259
—twin-lamp 839
Integrated-circuit tester 367
Interface elements—monolithic 131

Laser—gas, d.c. excited 60
Lens—microphoto and i.-c. mask-making 827
Level measuring system 374
Light modulator—electro-optic 371
Linearizer for anemometers 259
Load units—electronic 124

Magnetic platinum-cobalt alloy 759
Magnifier—illuminated 909
—industrial 759
—inspection 909
Marking unit 681
—back-of-panel mounting 907
Meter—conductivity, direct-reading 188
—current 56
—h.-v. d.c. 685
—foot-candle, pocket-sized 267
—frequency, digital 363
—gas density 603
—illumination 757
—microwave power, thermoelectric 268
—pH, digital 60
—pH and mV 188
—pH, portable 121
—pH, portable, laboratory type 121
—spot 371
—trigger tension 681
Microscopes—measuring, portable 196
—electron 605
—photo, with spot metering facility 757
—projection attachment 909
—stereoscopic 268
—stereoscopic, zoom-magnification 681, 909
Micropositioning system—automatic 681
Microspot and laser 841
Moulding compound 543
Motor—a.c., variable-speed 539
—d.c., miniature 369
—brushless 761
Multimeters—d.c. 539
—digital 56
—d.c., portable 845
—electronic 845
—overload-protected 907

N.c. turning machine—universal 604
Nitrogen content analyser 753

Oscillators—fixed-frequency, miniature 263
—Ga. As. c.w. 839
—sine/square-wave 463
—tuning fork 541
Oscillograph paper processor 903
Oscilloscope—portable 52, 762
Oven—thermal-top 258

Pilot light—rear-assembly 260
Phasorscope 463
Photoelectric devices 60
Photoelectric sensing system 267
Photometer—micro, digital 827
Plastic tube shrinker 543
Plotter—incremental 465
—incremental, digital 829
Polariscope—large-area 60
Potentiometers—comparator 367
—calibration 463
—helical 127
—miniature precision 124
—portable 191
Power modules—d.c. 685
Power supplies 541
—variable 264
—for integrated circuits 541
—low-voltage, modular 683
—solid-state 841
Power unit—laboratory 191
Preamplifier—nanovolt 845
Preselector 363
Press—bench, magnetic 604
Pressure cell—earth 259
Pressure tester—dead-weight 259
Printers—digital 835
Probe—differential and amplifier 52
Projector—measuring 757
Pumps—bellows 757
—corrosive solutions 545
—laboratory 189
Punch 759
Punched paper winder unit 837

Reader—tape 131
Recorders—chart 259, 372, 464
—data 537
—differential 464

—electrostatic 372
—graphic 122
—incremental 837
—miniature 464, 829
—potentiometric 52, 829
—tape, instrumentation 55
Recorder generator—analogue/digital 602
Rectifier—transient-protected 127
Refrigerator—thermo-electric 544
Relays—bi-stable 539
—control 762
—logic power 263
—reed 191
Roundness measuring instrument 909

Sampler changer—automated 761
Sealer/timer 123
Semiconductor cutting device 833
Signal averager 905
Silicon dice container 128
Silicon rubber foam 681
Slides—linear 373
Slide rules—metal 373
—combined with depth gauge and vernier caliper 543
Slip rings and brushes—miniature 367
Solder reflow machine—n.-c. 833
'Solderability' test machine 192
Soldering iron—temperature-controlled 911
Spanners—flexible torque 543
Spark erosion machine 192
Spectrometer 753
—gamma 831
—n.m.r. 121
Spectrophotometer 121
—u.-v. 60
Spectroscope—portable 121
Spectrum analyser 753
Sterilizer—dry heat 465
Stirrer—variable-speed 601
Strain gauge 189
Strain gauge power supply and signal conditioning unit 683
Strain gauge system 189
Strain gauge and transducer conditioning modules 831
Strain indicator—digital 755
Surface temperature tester 258
Switches—differential air pressure 190
—differential pressure 190, 374
—lighting control 827
—liquid-level alarm 132
—miniature mercury-tilt 191
—pressure 757
—rotary-edge 127
—rotary, miniature 761
System response analyser 841

Table—rotary 373
Tachometer—miniature 459
—industrial 545
—portable electronic 755
Tape-readers 873, 903
Tape transport—single-capstan 461
Telescope—beam expander 827
Temperature controls—solid-state 601
Temperature regulator 601
Temperature test chamber 122
Thermocouples 259
Thermocouple welding unit 543
Test-tube shaker accessory 372
Test set—milliwatt 463
Testing cabinets—programmed 544
Thermometer—platinum resistance 122
—vapour-pressure 679
—resistance 679
Thermostat—room 601
—evaporator and defrosting 761
Thickness meter—ultra-sonic 196
Time-delay unit 363
Timers— 753
—cam 123
—digital 363
—escapement 603
—electric 196
—gas-flow 753
—reset 365, 755
—synchronous 195
—transistorized 603
—universal 755
Torch—miniature butane 128
Transducer carrier-frequency amplifier system 131
Transducers—pressure 259
—general-purpose 605
—pressure, h.-f. 755
Transmitter—pressure balance 132
Tubing—thin-wall heat-shrinkable 533
Tv waveform monitor 539

Vacuum coating equipment 128
Vacuum gauge 374
Vacuum—high system 189
Valve—sample 757
Vice—table, miniature 260
Voltage source—digital 539
Voltage standard—d.c. 907
—differential d.c. 845
Voltmeter—corrosion 188
—digital 191
—digital recording 367
—milli, integrating 195, 263
—integrating 463
—phase-angle 907
—phase-sensitive 192

Washers—mounting, therma-film 260
Water purity indicator/controller 601
Welder—stored-energy 192
Welding alloy 465
Wire stripper 373
—and cutter 759
